

BUTLER COUNTY SANITARY LANDFILL 2011 POLICY ON COUNTY CLEAN UP EVENTS

Butler County is committed to keeping our environment clean and healthy. To that end, we are pleased to offer our countywide cleanup program. This program is designed to be effective, accessible, and equitable for all citizens of Butler County.

- Butler County is designating **April 16th to April 23rd** for a countywide cleanup event available to all residents of Butler County. Disposal fees will be reduced for eligible items during the cleanup event.
- Eligible cleanup wastes are those items **not considered to be normal waste**. Examples would include items such as furniture, appliances, and bicycles, building materials, small equipment, retired toys and yard trimmings. Metal goods and yard trimmings can be recycled and so should be separated and unloaded in the appropriate areas.
- All acceptable waste that is not considered to be cleanup waste will be subject to current landfill fees. Regular waste must be separated from cleanup waste. **Mixed loads will be charged regular landfill fees.**
- Cleanup events are open only to residents of Butler County. No hazardous or liquid waste will be accepted. Participants are required to abide by all rules and prohibitions posted at the Landfill. Recycle bins will be available as always.
- The following fees will be charged for eligible cleanup waste delivered to the Butler County Sanitary Landfill during a scheduled cleanup event

Brush, limbs, yard waste, untreated lumber	FREE
White goods (without refrigeration units)	FREE
Refrigerators, freezer, air conditioners	\$5.00/each
Tires (passenger and light truck; no rims)	\$0.50/each
All other cleanup waste (min. \$0.50 load)	\$2.00/ton

- Cities hosting citywide cleanup events will be allowed up to two weeks each year to dispose of eligible waste at the reduced landfill disposal fees. Cities have the option of two separate one-week events during the year. Cities hosting an event are required to provide a means of collection and disposal. City cleanup events **must be prearranged** with the Butler County Department of Public Works. Please call Dianne at 320-1453.
- A one-week cleanup event is considered to be one that takes place on any one or more days within a week. A week is defined as beginning at 8:30 a.m. on a Monday and ending on the immediate following Saturday at 5:30 p.m.
